

Nigerian Journal of DERMATOLOGY

INFORMATION TO CONTRIBUTORS AND READERS

Nigerian Journal of Dermatology, NJD, is a forum for communication of research results and policy issues in the health sciences especially as related to dermatology and allied sciences, Plastic Surgery, Venereology, Pathology, Anatomy, Physiology and Biochemistry.

The journal is dedicated to serving primarily scientists in Africa and other developing countries outside the continent who seek a medium for publishing their research findings. Since science is global, articles would be welcome from every geographical location across the world.

There are pressing and specific problems related to Africa and to people of coloured skin. Ainhum, acne keloidalis are examples of two of a long list of cutaneous diseases peculiar to the sub region and waiting for research by the basic sciences; gratifying modalities of treatment are equally awaited.

The editorial board will therefore give priority to the development and promotion of such cutaneous health issues.

Frequency of publication: Quarterly.

Content format: Each issue will contain essentially the following sections, with variants where necessary:

- i. A short editorial statement on policy issues not more than two thousand words, placed not necessarily on the first page.
- ii. A short review (not more than five thousand words) titled "Perspective" on a current topical issue in Dermatology.
- iii. One or two review articles by invitation or on application.
- iv. Peer reviewed articles by invitation or on application.
- v. Letters to the editor.
- vi. News about, and on, African health and related matters.

Research papers should be composed of the following in that order, clearly typed in double space:

- i. Title, which should be short and specific.
- ii. Full names of all the authors, qualifications and affiliations of each, and full address of each author. (Qualifications of authors are only required for purposes of Editor's use and not for publication).
- iii. Name and address of the corresponding author and his/her phone/fax numbers (home & office).
- iv. Sources of financial support, if any.
- v. Summary of not more than 200 words as well as three to four key words.
- vi. Introduction.
- vii. Materials and methods.
- viii. Results.
- ix. Discussion

- x. Conclusion
- xi. Acknowledgments — placed immediately after the next, and before the references
- xii. Citations and references will be arranged according to the Vancouver Style:

A. Citation of Periodicals

Kofi-Tsekpo WM and Karekezi CW. Detectability and measurability of amoscinate in plasma by TLC and HPLC. *Drugs under Experimental and Clinical Research*. 1988; 14: 31-37.

Watkins WM, Howells RE, Brandling-Bennet AD and Koech DK. In vitro susceptibility of *Plasmodium falciparum* isolates from Jilore, Kenya to antimalarial drugs. *American Journal of Tropical Medicine and Hygiene*. 1987;37: 445-451.

B. Citation of Books

Ole Fijerskov, Firoze Manji and Vibeke Baellum, eds. Dental fluorosis Handbook for health workers. Copenhagen: Munksgaard, 1988 p.

C. Citation of Chapters in books

Same as (B) above.

D. References

in the body of text should be in chronological order and identified by roman numerals in brackets: e.g. Specific point mutations in naturally resistant laboratory isolates of *P. Falciparum* [4, 5]

E. Figures, Charts & Pictures

Figure legends and tables should be professionally done. Tables/charts should be in black and white - 100 mm (minimum) and 175 mm (maximum). Coloured pictures may be submitted. Such pictures should be very clear and in size 5 x 7 inches. Where digital pictures are submitted, they should be in jpeg or bitmap format and not less than 300dpi resolution. Unclear and blurred pictures will be rejected. The publisher also reserves the right to convert coloured plates to grayscale where necessary.

F. Short Communications

This should possess all the elements of scientific communication as research papers, but without abstracts and subheadings and with not more than 500 words and 5 references.

G. Submission of paper to the Journal

Anyone who submits a paper for publication must provide the following:

- i. A letter of submission electronically.
- ii. Manuscript created using a word-processing program in PC format is encouraged. This is submitted electronically. Two hard copies of the peer reviewed, corrected manuscript will be sent over by the corresponding author to the editorial assistant, Regina Faley MS, at the editorial office in the Department of Medicine, University College Hospital, Ibadan, Oyo State, Nigeria
- iii. Written permission from authors whose copyright material has been used in the manuscript.
- iv. Informed consent from authors whose photographs have been used.
- v. Copyright statement as follows:

I/We..... The undersigned, who is/are the author(s) of the manuscript titled.....transfer all copyright ownership of this manuscript to the Nigerian Journal of Dermatologists, in the event that the manuscript is published in the Journal. I/We give guarantee that the content of the manuscript is original, and is not currently being considered for publication by another Journal.

- vi. A letter of acceptance will be sent once the above stages have been complied with.

Editor's Comments

At the World Congress of Dermatology in Vancouver in 2015 a meeting was held with African delegates in attendance and Nigeria was nominated to host the first meeting of the African Society of Dermatology and venereology. This first meeting was planned to coincide with the tenth anniversary of the Nigerian Association of Dermatology.

This 10th Annual scientific conference and Annual general meeting of the Nigerian Association of Dermatologist (NAD) and the 1st Scientific meeting of the African Society of Dermatology and venereology (ASDV) took place at Ladi Kwali Conference Hall, Sheraton Abuja Hotel in the Federal capital territory Abuja (FCT) from 13th to 16th of July 2016.

To ensure high standards during the scientific meetings N.A.D invited dermatovenereologists who have distinguished themselves in their areas of specialization from Africa, Asia the Europe and America to improve participants' skills in all areas of dermatology including surgical and cosmetic dermatology. These two events have generated a need for this Anniversary Edition. It is our hope that henceforth the Nigerian Journal of

Dermatology will become a forum not just for Nigeria but for dissemination of scientific informations from other African countries and indeed from outside of the continent as well.

We plan to showcase the events taking place in dermatological societies across Africa. Ghana is being featured in the current (anniversary) edition.

The abstracts of the presented papers are documented to show the broad spectrum and wealth in dermatological science from the continent.

A photo gallery showcases the diversity of the crowd that came together during the three-day anniversary.
